

I as a resident of New Jersey would like to ask th FCC to leave our Do Not Call list alone. It is an invasion into my home when I am bombarded with unwanted calls mostly during the dinner hours when we are trying to share time with our families.I pay for my number to be unlisted, and that should extend to these unwanted callers of every kind. Please think carefully before you change one good thing New Jersey government has done for there people.

Thank You,

Megan Maltese
